

To whom it may concern, I would like to petition to keep LPFM stations from having precedence over FM Stations. I listen to KLove everyday to help me keep a positive attitude and a good outlook on life. There are so many depressing things that happen in our world today and there are very few places to find encouragement...many other radio stations play songs that are mostly self-centered or discouraging and TV certainly is not encouraging. I know many people personally that find encouragement on this radio station and we would be devastated to have it taken away. Our community as a whole benefits from the public service announcements also, often there are family friendly community events advertised or an encouragement to get involved in a city mission. Please do not allow LPFM stations to take over my Klove station.
